

## Earn your Pharmacy Technician Diploma from anywhere in the world, and work towards a rewarding career!

### Dear Prospective Student:

If you've imagined working in a professional setting and helping others in a rewarding career, then Blackstone Career Institute's Pharmacy Technician Diploma Program can be your opportunity to turning this possibility into a reality. Even in today's economy there are plenty of opportunities for those who wish to work in the healthcare fields: according to the U.S. Department of Labor, the number of pharmacy technicians employed in the United States is expected to grow up to 9% by 2024.

Blackstone's unique distance learning programs enable you to gain skills for a new career at your own pace, without disrupting your present job or lifestyle. Distance learning is a convenient way to attain an education, while avoiding expensive campus courses, lengthy commutes, and extra fees for textbooks, course supplies and parking. Eliminate costly commuting time and/or day care costs by studying at home with a reputable career training provider. We make it easy to get a real-world education and start on the path to a new career.

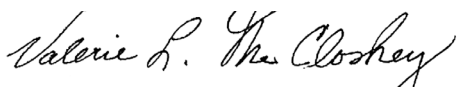

### Blackstone's Pharmacy Technician Program is for you if:

- **You want training that is accredited:** Blackstone is nationally accredited by the Distance Education Accrediting Commission, is regionally accredited by the Middle States Commission on Secondary Schools, and has been privately licensed by the Pennsylvania Department of Education since 1984. Blackstone's credentials are your assurance that you are getting a quality program.
- **You want training that is affordable:** Blackstone's Pharmacy Technician program is affordable and everything you need to graduate is included with tuition—textbooks, study guides, exam services, online resources, and student support.
- **You want training that is convenient:** You are given up to one year to complete the program, so you can study whenever it is most convenient. You have access to our Online Student Center with online testing, instant grade results, 24-hour access to your records, study guides, and more!
- **You want a career that allows you to help others:** Pharmacy technicians work alongside licensed pharmacists to offer a high level of customer care. You will provide valuable services to segments of the population that rely on medications for their health and well-being. There are many settings where pharmacy technicians are needed for their skills and expertise—hospitals, nursing homes, drugstore chains, grocery stores, and physicians' offices.
