Why Choose Medical Billing & Coding

The Career

Depending on the size of the facility, medical billing and coding can be one job or it may be distinguished as two separate jobs. The job of the medical biller entails knowing the methods of billing patients, understanding various collection methods, completing medical billing and claim forms, and coding. Medical billers must know how to explain charges and communicate effectively with patients and insurance companies.

Medical coders assign a code to each diagnosis and procedure on claim forms that are submitted to health insurance companies. Codes exist for all types of medical encounters, services, tests, treatments, and procedures provided in a medical office, clinic, or hospital. Classification manuals and software programs assist medical coders in doing their job efficiently.

Job Opportunities

Medical billers and coders—often called health information technicians—can utilize their skills in a variety of healthcare facilities including hospitals, nursing homes, medical group practices, clinics, and home health agencies. Other settings that may employ health information technicians are insurance firms and public health departments. Additional opportunities exist for home employment.

Employment Outlook

As insurance and governmental regulations become more complex and the U.S. population ages, the demand for medical billing and coding professionals continues to rise. Health information technology is one of the fastest growing occupations in the United States. This career field is expected to grow by 13%, much faster than the average for all occupations through 2024, due to rapid growth in the number of medical tests, treatments, and procedures which will be increasingly scrutinized by third-party payers, regulators, courts, and consumers.

What You Can Earn

Many factors are considered when calculating salary for medical billing and coding specialists such as location, job title, education level and years of experience. According to the U.S. Dept. of Labor, Bureau of Labor and Statistics, those working in a Medical Billing & Coding career earned up to \$62,840 annually.

Certification

Graduates of Blackstone's Medical Billing & Coding program are qualified to sit for the Certified Coding Associate (CCA) exam administered by the American Health Information Management Association (AHIMA), as well as the Certified Medical Reimbursement Specialist (CMRS) exam from the American Medical Billing Association (AMBA). After gaining work experience, graduates can take the American Academy of Professional Coders' Certified Professional Coder (CPC) exam. Becoming certified in your field can lead to a higher salary and more advancement opportunities.

A Blackstone Education Provides...

Superior Student Services

You are not alone when studying with Blackstone. While there is no formal campus or classrooms, we offer assistance to our students that is second to none.

Program Assistance

Our education department is simply a phone call, fax, or e-mail away if you need help with your course studies. Use our toll-free number to access our staff or e-mail your questions 24 hours a day, 7 days a week.

Thorough Testing

Eighteen multiple-choice exams, chapter self-checks, and a required keyboarding assignment assist us in assessing your understanding of the concepts taught. Online testing is available through our Online Student Center.

Ample Time

Students are permitted up to one year to complete the program. There are no formal classes to attend, so you can study when and where it suits you.

Affordable Tuition

Our Medical Billing & Coding Program remains one of the most reasonably priced in the country. Your tuition cost covers your entire program including all e-books, electronic resources, study guides and study units, exam and homework evaluation services, access to the Online Student Center, and your diploma.

Financial Assistance

BCI takes the confusion out of understanding military education benefits. With career programs approved by both the Department of Veterans Affairs, and The Military Spouse Career Advancement Accounts Program (MyCAA), Blackstone offers assistance in receiving the benefits for which you are eligible.

Many employers offer benefit programs to reimburse employees for tuition expenses. Check with your employer to see if you are eligible.

Payment plans are available for financing your career training. Call Blackstone at 800-826-9228 to find out more today!

Online Student Center

Included with your tuition, you will have online access to your study guides and study units, exams, grades, discussion boards, and more.
